**Subject:** RE: Emergency Testing

Karl,

Regarding our release of the IAG, shall we continue planning for Thursday afternoon, maybe 2:00 to allow time for this discussion?

**Subject:** Emergency Testing

Ms. Hatch,

With the recently filed lawsuit there is some panic that the Bridgeton Athletic Complex may be radioactively contaminated. This complex is just north of the landfill and, while the Just Moms Facebook group had some samples tested recently that were negative, the city officials need a more qualified test taken.

Can you do this on an emergency basis? What time frame would we be looking at? There are literally thousands of ball players there in any given season from all age groups and there is concern about a widespread panic.

I would appreciate your immediate attention to this.

Thank you,

Bill Otto
